Summary of Significant Accounting Estimates

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events, and certain assumptions about future events. The following describes the significant accounting estimates reflected in the Township's financial statements:

Area	Accounting Policy	Estimation Process	RKL LLP Comments
Capital Assets	Depreciation is computed using the straight-line method based on the estimated useful lives of the assets.	Management estimates the useful lives of the assets at the time they are placed into service. Depreciation is determined based on the lives established by management.	Policy is in accordance with GAAP.
Unbilled Utility Charges	Fourth quarter utility charges for 2016 are not billed until January 2017. In order to properly reflect utility revenue, the portion applicable to 2016 is estimated.	The first utility billing in 2017 is allocated to record the portion that relates to 2016.	Policy is in accordance with GAAP.
Fair Value of Investments	Investments are held by brokers who report to the Township the fair value of investments on a monthly basis.	Management reviews the monthly investment statements. Changes to the fair value of investments are made as part of the annual audit process.	Policy is in accordance with GAAP.
Valuation of Net Pension Liability	The valuation of the Township's net pension liability and deferred outflows and inflows related to the pension plans was determined in accordance with GASB Statement No. 68, <i>Accounting for Pension by State and Local Government Employees</i> .	Actuaries performed a valuation of the pension plans in order to determine the Township's net pension liability, deferred outflows and deferred inflows related to the pension plans.	Policy is in accordance with GAAP.

Summary of Significant Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the Township's financial statements are noted below:

Financial Statement Disclosures	RKL LLP Comments
Deposits and Investments	Disclosures include custodial credit risk on deposits held by the Township, including the amount of deposits covered by Federal Depository Insurance and the amounts covered under Act 72. Disclosures also include detail related to the investments held in the Township's pension plans and the related cost and fair values. The Township adopted GASB Statement No. 72 for its December 31, 2016 financial statements. New disclosures in accordance with this statement were added to the footnotes regarding fair value measurements.
Capital Assets	Disclosure includes summary of the components of capital assets. During the year ended December 31, 2016, management concluded that no impairment adjustments were required. There were no significant changes to disclosures in 2016.
Long-Term Debt	Disclosures include a summary of outstanding debt and aggregate maturities of the remaining balances. There were no significant changes to disclosures in 2016.
Pension Plans	<p>Disclosures include the following for the Township's pension plans: plan description, benefits provided, employees covered by benefit terms, contribution policy, net pension liability measurement, actuarial assumptions used, the discount rate used for the total pension liability calculation, a detail of the changes in the net pension liability and the pension expense, and deferred outflows and deferred inflows related to pensions.</p> <p>The disclosures are in accordance with the GASB Statement No 68, <i>Accounting and Financial Reporting for Pensions—An Amendment of GASB Statement No. 27</i>, which the Township adopted during 2015.</p>
Fund Balances	Disclosures include a detail of the nonspendable, restricted, committed, assigned and unassigned fund balances for the Township's governmental funds and fund balance and spending policies for those funds. There were no significant changes to disclosures in 2016.

The disclosures in the financial statements are neutral, consistent, and clear.

APPENDIX A

Management Letter

To the Board of Supervisors
Upper Saucon Township
Lehigh County, Pennsylvania

This letter includes a comment and suggestion with respect to a matter that came to our attention in connection with our audit of the financial statements of Upper Saucon Township (the Township), Lehigh County, Pennsylvania, for the year ended December 31, 2016. This item is offered as a constructive suggestions to be considered part of the ongoing process of modifying and improving the Township's practices and procedures.

Inventory of Office Equipment

Currently, the Township performs a physical inventory of vehicles and road crew equipment for insurance purposes, and a physical inventory of office equipment was also performed in late March 2014. However, there is no reconciliation of the assets to those assets listed on the Township's capital asset detail listing. An integral part of any physical inventory is the reconciliation of the physical count to the recorded listing of capital assets in the financial accounting records.

Recommendation

Continue to maintain a current inventory listing of office equipment and reconcile all equipment to the Township's detailed capital asset listing. Any assets which are no longer owned by the Township should be removed from that listing.

This letter is intended solely for the information and use of management, the Board of Supervisors and others within the Township and is not intended to be and should not be used by anyone other than these specified parties. We appreciate serving Upper Saucon Township and would be happy to assist you in addressing and implementing any of the suggestions in this letter.

Letter Communicating a Significant Deficiency
in Internal Control over Financial Reporting

To the Board of Supervisors
Upper Saucon Township
Lehigh County, Pennsylvania

In planning and performing our audit of the financial statements of Upper Saucon Township (the Township), Lehigh County, Pennsylvania, as of and for the year ended December 31, 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the Township's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, significant deficiencies or material weaknesses may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis. We did not identify any deficiencies that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Township's internal control to be a significant deficiency:

- In connection with the audit of your financial statements, you have requested that we assist in the preparation of the financial statements, as you have determined that your internal accounting personnel need assistance in preparing the financial statements in accordance with accounting principles generally accepted in the United States of America. You have also determined it is cost beneficial for you to utilize our services to supplement your internal capabilities.

While we are pleased to provide this service, you understand that you are responsible for the Township's internal control over financial reporting. Internal control is a process, which in addition to capturing and properly recording transactions, safeguarding your assets and assuring compliance with laws and regulations, leads to the preparation of financial statements. As your auditors, we cannot be part of that internal control system. The fact that your staff needs assistance preparing accurate financial statements (both as to amounts and disclosures), which is a normal and required component of internal control over financial reporting, constitutes a significant deficiency.

This communication is intended solely for the information and use of management, the Board of Supervisors and others within the Township and is not intended to be, and should not be, used by anyone other than these specified parties.
