Hopewell Park- Wild Things

June 19-23

Look around if you were a toad or firefly where would you be? If you were a bird, mammal, or snake in this space what would you eat? Think, open your eyes, and notice what you have been missing. Find the wild things, get to know them, and do what you can to keep them safe. Experiments, games, and Wildlands Conservancy’s own Animal Ambassadors fill this week made for those who love all things furry, feathered, and scaled.

Hopewell Park- Science in Nature

July 10-14

Curiosity, experimentation, and discovery- unearth the thrill of science, technology, and engineering, and the beauty of the natural world. What will you create? What part of nature will inspire you? Get ready to put your STEM glasses on through many hands-on experiments and investigations. Each day includes a new question to be answered.

Community Park- Wild Things

August 14-18

Look around if you were a toad or firefly where would you be? If you were a bird, mammal, or snake in this space what would you eat? Think, open your eyes, and notice what you have been missing. Find the wild things, get to know them, and do what you can to keep them safe. Experiments, games, and Wildlands Conservancy’s own Animal Ambassadors fill this week made for those who love all things furry, feathered, and scaled.
